

AYSO RESIDENTIAL SOCCER CAMP

Chapman University, July 23-28
2017 RESIDENTIAL SOCCER CAMP

What is the AYSO Residential Camp?

The AYSO Residential Soccer Camp is different from other soccer camps since the focus is on the complete development of a player both on and off the field. Soccer players will learn key elements needed to be a successful team player, as well as develop the level of personal responsibility needed to succeed in junior high, high school, college and beyond.

Who Can Attend the AYSO Residential Camp?

The Residential Soccer Camp is for soccer players, ages of 12-15, who want to learn about soccer and gain leadership and life skills.

What is the Cost and What Will the Athletes Receive?

The camp costs \$695 and includes room and board (double occupancy), four T-shirts, a jersey, soccer ball, water bottle and backpack.

What Will Players Learn at Residential Camp?

The curriculum for the soccer portion of the AYSO Residential Soccer Camp will include four attributes that will help develop a good soccer player.

- **Technical** Focuses on improving the technical skills of each individual player.
- **Tactical** Helps players develop an understanding of their role on a team and further their understanding of different tactical approaches during a match.
- **Physical** Stresses the importance of conditioning, physical training and what it takes for players to develop their body, in order to maximize their performances.
- **Mental** Emphasizes the importance of a positive attitude toward training, teammates, opponents and the game.

Leadership and Life Skills

The second component of the camp curriculum focuses on what it takes for a player to not only be a good soccer player, but a positive role model and leader.

- **Leadership and Academics** During the week, players will develop an understanding of what it means to be on a team, on and off the field. They will develop leadership skills, including, listening, team management, decision making, communication skills and other tools they can use now and in their careers.
- **Health and Life Choices** Players will learn about nutrition, hydration and how to make positive eating choices by gaining knowledge about which goods will help increase their performance and will in turn lead to healthy eating choices in life.
