

Disclaimer, Assumption of Risk and Waiver and Consent Agreements

I warrant and acknowledge that I am the parent or legal guardian of the player named on the reverse side of this application, a minor ("Player") and that I am authorized on behalf of myself, Player and our heirs, assigns and next of kin, to hereby enter into the following agreements IN CONSIDERATION OF Player's being able to participate in any way at practices, games or other activities ("EVENTS") sanctioned by the American Youth Soccer Organization ("AYSO").

DISCLAIMER, ASSUMPTION OF RISK AND WAIVER: I acknowledge that participation in soccer necessarily involves travel, play in adverse field conditions, contact with considerable force, and risk of severe, permanent physical injury including bruises, scrapes, strained, sprained or torn muscles, tendons or ligaments, broken bones, dislocation of joints, concussion, brain damage, nerve and spinal cord injury, paralysis and death. I WILLINGLY AND VOLUNTARILY ASSUME ALL SUCH RISKS. I willingly and voluntarily agree to comply with the stated and customary terms and conditions for participation and, if Player or I observe any concern in Player's readiness for participation in the EVENTS, I will remove him/her from participation and bring such concern to the attention of the nearest official immediately and also of the Regional Commissioner as soon as possible thereafter.

I HEREBY RELEASE, DISCHARGE AND AGREE TO HOLD HARMLESS, to the fullest extent permitted by law, AYSO, its players, employees, volunteers, officials, sponsors and other representatives and any and all owners, lessors, lessees or other persons or entities allowing, permitting or authorizing the use of facilities by AYSO and the agents, employees, officers and directors of said persons or entities ("RELEASEES") from any and all claims, demands, costs, expenses and compensation arising out of or in any way related to an injury or other damage that may result to said participant or to members of my family or my household or individuals I invite or for whom I am otherwise responsible while participating in or present at any of the **EVENTS, WHETHER ARISING FROM THE NEGLIGENCE OF THE RELEASEES OR OTHERWISE.** I further acknowledge that AYSO is primarily administered by volunteers rather than paid professionals.

I further acknowledge and accept that this Disclaimer, Assumption of Risk and Waiver is intended to be as broad and inclusive as permitted by the laws of the state in which we live and agree that if any portion of this Disclaimer, Assumption of Risk and Waiver is deemed to be invalid, the remainder will continue in full legal force and effect.

ACKNOWLEDGEMENT AND CONSENT: I understand the terms of the Soccer Accident Insurance Plan are set forth in a pamphlet available from the Safety Director of my region or on-line at http://www.ayso.org/resources/insurance/insurance_forms.aspx, as the same may be amended from time to time, and either I have read and understand the terms or I will do so before permitting Player to participate.

I further acknowledge that I have received the AYSO/CDC Parent/Athlete Concussion Information Sheet (also available online at <http://www.ayso.org/resources/safety.aspx>) which contains information related to a) signs and symptoms of a concussion; b) danger signs associated with a concussion; c) why athletes should report symptoms related to a concussion; and d) what should be done if a concussion is suspected. I agree to review the Parent/Athlete Concussion Information Sheet with my child (Player) and return a signed copy as indicated on the form to my child's coach on my child's first day of practice.

For both internal and external use, I acknowledge that AYSO may compile and use addresses and soccer photographs of Player consistent with the AYSO Privacy Policy set forth at http://www.ayso.org/resources/legal/privacy_policy.aspx, as the same may be amended from time to time. I consent to such uses and hereby waive all rights to approval and compensation.

On behalf of my child (Player), myself and all members of my child's family, I hereby agree to abide by the AYSO Bylaws, rules, regulations, policies and philosophies as available at http://www.ayso.org/resources/governing_documents.aspx, and all decisions and directions of the Regional Board, Area and Section staff, and the National Board of Directors, and I understand that the Player or any member of the Player's family may be removed from the program at any time with or without cause. I further agree that the Player has not been convicted of any crime as a minor nor does the Player have any known condition that might pose undue risk to other participants.

(Please signify your agreement with the foregoing by signing in the space indicated on the reverse side of this form.)

Parent/Athlete Concussion Information Sheet

A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by bump, blow or jolt to the head or body that causes the head and brain to move rapidly back and forth. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious.

WHAT ARE THE SIGNS AND SYMPTOMS OF CONCUSSION?

Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury.

If an athlete reports **one or more** symptoms of concussion listed

Did You Know?

- Most concussions occur *without* loss of consciousness
- Athletes who have, at any point in their lives, had a concussion have an increased risk for another concussion.
- Young children and teens are more likely to get a concussion and take longer to recover than adults.

below after a bump, blow, or jolt to the head or body, s/he should be kept out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, says s/he is symptom-free and it's OK to return to play.

SIGNS OBSERVED BY COACHING STAFF	SYMPTOMS REPORTED BY ATHLETES
Appears dazed or stunned	Headache or "pressure" in head
Is confused about assignment or position	Nausea or vomiting
Forgets an instruction	Balance problems or dizziness
Is unsure of game, score, or opponent	Double or blurry vision
Moves clumsily	Sensitivity to light
Answers questions slowly	Sensitivity to noise
Loses consciousness (<i>even briefly</i>)	Feeling sluggish, hazy, foggy, or groggy
Shows mood, behavior, or personality changes	Concentration or memory problems
Can't recall events <i>prior</i> to hit or fall	Confusion
Can't recall events <i>after</i> hit or fall	Just not "feeling right" or "feeling down"

CONCUSSION DANGER SIGNS

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. An athlete should receive immediate medical attention if after a bump, blow or jolt to the head or body s/he exhibits any of the following danger signs:

- One pupil larger than the other
- Is drowsy or cannot be awakened
- A headache that not only does not diminish, but gets worse
- Weakness, numbness, or decreased coordination
- Repeated vomiting or nausea
- Slurred speech
- Convulsions or seizures
- Cannot recognize people or places
- Becomes increasingly confused, restless, or agitated
- Has unusual behavior
- Loses consciousness (*even a brief loss of consciousness should be taken seriously*)

WHY SHOULD AN ATHLETE REPORT THEIR SYMPTOMS?

If an athlete has a concussion, his/her brain needs time to heal. While an athlete's brain is still healing, s/he is much more likely to have another concussion. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in young athletes can result in brain swelling or permanent damage to their brain. *They can even be fatal.*

Remember

Concussions affect people differently. While most athletes with a concussion recover quickly and fully, some will have symptoms that last for days, or even weeks. A more serious concussion can last for months or longer.

WHAT SHOULD YOU DO IF YOU THINK YOUR ATHLETE HAS A CONCUSSION?

If you suspect that an athlete has a concussion, remove the athlete from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, says s/he is symptom-free and it's OK to return to play.

Rest is key to helping an athlete recover from a concussion. Exercising or activities that involve a lot of concentration, such as studying, working on the computer, or playing video games, may cause concussion symptoms to reappear or get worse. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional.

It's better to miss one game than the whole season. For more information on concussions, visit: www.cdc.gov/Concussion.
